TWELFTH ANNUAL EXCHANGE EDITION

MASTER INDEX PLANNED FOR N. Y. RECORDS

New York State records of census, vital statistics, cemetery inscriptions, family data in old Bibles, and church births and marriages may soon be microfilmed. This index will be patterned on the one at the Connecticut State Library in Hartford, Connecticut. The Connecticut index which has taken 50 years to assemble includes all known vital records of the State (1635 to 1850), cemetery inscriptions, census records, and church records of that State. In this type index, all cards for a certain person are filed together, no matter where the data concerning that person is found.

Van Buren Lamb, Jr. of Summit, New York, formerly of Connecticut, has been trying for twenty-five years to find a library interested in and with room to house such a Master Index project, and he believes that New York State Historical Association headquarters, Fenimore House, in Copperstown, is the ideal depository. As Fenimore House is host each year to thousands of visitors, and holds a two-week Seminar of American Culture each summer, it is an ideal location for such a Master Index of important State Records. Cooperstown, in the Catskills, is also far from any strategic city that might be bombed. No one knows how many thousands of wills, dating back to 1400, were lost in England during the Blitz of World War II (over 100,000 in one building when Exeter Cathedral was hit).

New York State vital records did not start until 1882 or 3 so it is planned to start the New York Master index with the State census records of 1855, 1865, and 1875. These are more informative than the

Here's Suggestion How To Obtain Answers You Seek

Never before have so many people written with so much "heat" about people promising to exchange information on genealogical lines and then remaining silent when they receive what they want as at the present time. Few, however, have made any suggestions how to stop it from spreading.

Now comes Mrs. Fay J. LeGeyt, P. O. Box 173, East Hartland, Conn., with a suggestion that ought to change this situation. In writing for information to different people several years ago we used this method after writing to some without getting the information we really wanted. It worked.

This is what Mrs. LeGeyt suggests: "To better insure receiving answers to questions when writing for genealogical information, expecially when writing to elderly persons, I write or type each specific questions right in the body of my letter and leave a generous space of at least two inches in which the replier can jot down his or her answer right then and there. This may take more peper, but it makes unnecessary the composition of a letter by the replier and also makes unnecessary his or her searching through your letter for the questions within long paragraphs."

9,000 COPIES THIS ISSUE TO RESEACHERS

The Twelfth Annual Exchange Edition of this publication is herewith presented to the genealogical researchers of the world, but particulary to those of the United States and Canada. It continues to be the most valuable help ever offered the researcher at the least expense.

This edition goes first of all to the more than seven thousand regular subscribers. For many months after the issue is in the hands of the subscribers, extra copies will be sent to purchasers in different parts of the world. Judging by past experiences twenty or more orders will arrive daily for several months to come. In anticipation of these extra orders a total of nine thousand copies have come off the press. This is the largest number of copies printed of any issue of the magazine. Those in a position to know have intimated it is from nine to fifteen times the circulation of any other genealogical magazine in the world.

For the twelfth time the registrations in this issue exceed those of any other annual edition. Although the increase over last year is slight, none the less there is an increase.

Although this is the Twelfth Annual Exchange Edition of this magazine, a list of registrations has been printed for thirteen consecutive years. The first list was part of the 1949 Handy Book for Genealogists. It soon became evident that the need for such a publication was so pressing and demand-

(continued on page 66)

HOW WILL YOU GET BEST RESULTS FROM THIS ISSUE?

Each year new readers are added to the large subscription list of THE GENEALOGICAL HELPER. Since they may not know how to used the information presented in this issue, we are glad to give them some suggestions.

Several thousand names are listed in the Genealogical Exchange. This list should be checked for the names in which you are interested. If any of those names are spelled in a variety of ways, each different spelling should be noted, or you may pass up an opportunity to contact some one who may be distantly related to you.

Behind each name listed are one or several letter-number combinations, such as A5, B16, W96, etc. Each combination refers to a particular individual listed in the Directory of Genealogists. There you will find under the respective combinations the names and addresses of the researchers who are interested in families bearing the same surnames as those for which you are searching.

Write to any or all of these genealogists, briefly explaining your problem and asking them to give you whatever information they can. Along with your letter enclose a self addressed stamped envelope for the reply you desire. Without that courtesy your writing may be in vain. Few, if any, ever reply to inquiring letters unless the return postage is attached to a self-addressed envelope. The reason is plain: Most of these researchers are in about the same income bracket as you are. For months after the September GENEALOGICAL HELPER is distributed, they may receive from five to twenty letters a day inquiring about the people mentioned in their registration. Like you and me, they can't afford to spend $40 a month for stationery and postage on letters that are, perhaps, of little or no interest to them. Regardless of their financial stature, few men and fewer women - women naturally being more prudent, seldom are inclined to scatter their means promiscuously.

Be specific in your request. Be brief. Don't write a family history. Ask for no more than can be answered at the bottom of your letter in two or three paragraphs, or less. Give proper identification of the next of kin and the residence of the individual in question. If additional correspondence becomes necessary, that may be plenty time for extended explanations.

National census, for they give more detailed place of birth, relationships of all in the households to the head of the family, and number of children living and deceased. It is of great importance to microfilm these records as soon as possible. Unfortunately, the Albany copies were destroyed by fire, leaving only one copy at each of the County Clerk's Offices. These are not always kept in fireproof vaults and some have already been lost. Later some parts of the National Censuses of 1800, 1810, 1820, 1830, and 1840 may be added to the index.

It is hoped a single sponsor may be found to enable the indexing to start immediately, as the cost of microfilming and indexing the census records may exceed $500,000.00. The promise of $300,000.00 to film and index church and Bible records of the State has already been made and will be a memorial to the donor.

The vital records of deaths usually give the name of the father, maiden name of the mother, and place of birth of all. Even beginning in 1883, the information they contain is invaluable. In many cases they contain the only known record of the mother's maiden name. Under the Master Index system the record of a person may be located easily, even though the locality in the State in which the family lived is not known. In one case the residences of a lady who died in 1895 was known to be in Summit, New York. Nothing concerning her parents could be found, for even the family cemetery had been plowed under for use as a cow pasture. All town clerks' records in towns close by were searched without success. Years later her death record was found in the next county. She had died at her daughter's home in Kortright, Delaware County. As the daughter's home was near the Town Clerk's office at Harpursfield, her death was just recorded there.

Many town clerks have recently found the vital records of births, marriages, and deaths which were kept by school districts. These are not recognized by the New York State Department of Health for they cover only various years between 1847 and 1855, almost thirty years before that Department was authorized. Some of these have been found in deceased town clerks' attics, county store shelves, town barns, and abandoned churches. Except in the larger cities, all of these vital records are kept in any available space at the town clerk's home, which is seldom fireproof.

Church records and Bible records, which it is hoped eventually to microfilm and add to the Master Index are in just as precarious a position as to possible destruction by fire. Many of these records have been saved or copied by historical societies throughout the State and by the Daughters of the American Revolution, but few people know where they are or where to start looking for them.

Probate records kept in each county by the Surrogate's Office are equally valuable and hard to locate. Wills are usually indexed but in some counties those referring to land are just copies into the county clerk's deed books. Petitions for probate, which are of utmost importance in New York State, are in some instances not indexed or even kept in a probate jacket with other papers relative to the deceased's will. In Essex County, for instance, they are kept in separate drawers by year only, so date of death or year probated must be known before a search can be started. These petitions contain the names, relationships, and addresses of all heirs of the deceased.

OLD NEW JERSEY WILLS TO BE INDEXED

The Salem County Historical Society of New Jersey will publish this fall an index of old deeds in its possession. From time to time the Society has been the recipient of 1108 old documents, of which 76 are dated in the 1600's; 619 in the 1700's; and the remainder in the 1800's. The oldest is dated January 30, 1639 (for land in England). About 670 of the deeds have not been recorded in any public office. Nearly all relate to properties in Salem County, altho a very few concern lands in Pennsylvania, Virginia, New York, Georgia, and England. These deeds had been stored in disorder and not indexed. They have now been put in chronological order and indexed in the names of all grantors and grantees. The index now being prepared for publication will contain a foreword by Elmer Garfield Van Name, LL.B., LL.D., and will list the deeds not recorded. It is obvious that these documents are of great genealogical value and constitute a wealth of material not heretofore available. If destroyed they would be irreplaceable. The index can be ordered from the Society, 79 Market Street, Salem, New Jersey.

FORCE REPLIES?

A subscriber in California, an editor of a science magazine, writes: "Some time ago I wrote you mentioning the fact that so many of the advertisers in THE GENEALOGICAL HELPER who state that they will exchange information, fail to respond to inquiries when they have received the information they desire. I am so disgusted with the advertisers that I have just about stopped writing. Since writing you, my wife has also answered several ads giving the information she has, and in return she has not received a single answer."

"If all your subscribers have the same results, I do not know how you keep any at all. I am a magazine editor, myself, and I think I can understand the problem, but it seems to me that you just have to have some way to force the advertisers to reply or not accept further information from them."

ing that it was necessary to make it one of the annual issues of the quarterly, THE GENEALOGICAL HELPER, instead of combining it with a book that, at best, could be printed only every fourth or fifth year. The results have confirmed that decision.

There is no question about the success that can be obtained in genealogical research through the Annual Exchange Edition. It has been proven over and over again. Thousands of people have gained information through which they have been able to increase their knowledge of their ancestors. Some have increased their pedigrees from two to thirteen generations.

The same can be done today if the same cooperation prevails, But to do so, it is absolutely necessary that there be a two-way exchange, not a one-way exchange. Year by year the complaints have increased that some have remained silent after they have received the information they needed. They never gave anything in return for the things they had received, not even an expression of appreciation. Recently one researcher told us that she had sent three or four single-spaced pages of information to another researcher who had asked for assistance on a certain line. When no acknowledgement came after the information had been forwarded six weeks or more earlier, a self-addressed stamped envelope was sent inquiring if the information had been obtained. There is seldom any valid excuse for such dilatory procedures.

To get lasting benefit and real enjoyment from the present Exchange Edition, the subscribers in every instance should make it a real exchange, not a give-me proposition. We know of many lasting friendships that have sprung up over the years between readers of the magazine in widely separated localities because of the eager willingness of each one to give available needed information to the other.

Let it be so always is our earnest desire and wish!

How do you rate on correspondence manners?

1961 Genealogist's Exchange

Listed here in alphabetic order are surnames of persons sought by researchers registered in the 1961 Directory of Genealogists. The letter-number combinations refer to the researchers interested in the particular surnames. By turning to the reference, the name and address of the researcher in question is obtained. For instance, Carlson B236; W111, indicates that two persons are seeking information on the Carlson line. By turning to B236 and W111 in the 1961 Directory of Genealogists the names and address of those researchers are learned. If you are interested in the Carlson line write to those researchers and give them whatever information you have or may desire. Enclose a self-addressed, stamped envelope. Remember that it takes four cents now to send a regular letter and seven cents to send an airmail letter in the United States. If you have names listed and someone writes to you, courtesy demands an answer if only a polite "sorry no connection." And if you receive help from someone it only takes a three cent postcard and a few minutes to say thanks. Mail manners are just as important as face to face manners.

County Directory of Genealogists

The home counties and states of the researchers listed in the 1961 Directory of Genealogists are indicated here. Most of them are amateur and family researchers. Those marked with an asterisk (*) are professional genealogists.

The difference in these designations may not be one of talent. The degree of ability may be just as high in one designation as in the other two. The main difference is that the Professional Researcher devotes his time to assisting others on a remunerative basis. Hence, he requires a stipulated fee per hour or day for his activities.

If you have any research problems in or near any of these counties you may receive some suggestions by writing the one closest to the locality in which you are interested.

When writing always enclose in your letter a self-addressed, stamped envelope for the anticipated reply.

By turning to the registrations or advertisements of the professional Genealogists, you'll find that most of them do research in adjoining counties and states as well as in their home localities. It is also suggested if you are looking for a professional genealogists that you see the listings in the June 1961 GENEALOGICAL HELPER.

ANNUAL EXCHANGE INSTRUCTIONS FOR REGISTRANTS

HOW TO COUNT YOUR WORDS, NAMES, DATES, ETC.

A registration is an advertisement in the Annual Exchange Edition of THE GENEALOGICAL HELPER, in which researchers describe as far as possible, persons they wish to have identified.

Your name, address and five other words cost $1.00. Additional words, names or dates cost 10 cents each. However, two deductions may be made — (1) a deduction of 50 cents, if the registrant is a subscriber to THE GENEALOGICAL HELPER — (2) a deduction of 50 cents if the registration is typewritten.

Here are two examples of how to register, count your words, names, dates, etc., and figure the cost for registering in the Annual Exchange Edition. In the examples given below, the numbers in parenthesis over the words are only to show you how to count the words, names, dates, etc. These need not be placed on your registration blank. Just count each word, abbreviation, name and date in figuring your cost. Surnames should be capitalized or underlined.

EXAMPLE NO. 1

John Doe
123 North Humble
Hill City, Nebr.

(1) (2) (3) (4) (5) (6) (7) (8) (9) (10) (11)
has data to exchange on: HUFF, (Mass, Nebr); John JONES m.
(12) (13) (14) (15) (16) (17) (18) (19) (20)
Ann SMITH (Elizabeth Tp., Pa.) 1810; Joseph BROWN d.
(21) (22) (23) (24) (25)
Aug. 4, 1700, (Reeding, Mass.)

A total of 25 words, names and dates are included in this registration. The name and address of the registrant and five words cost $1.00. The extra 20 words cost $2.00 (20 x 10c—$2.00). So the cost of this registration is $3.00, if John Doe is not a subscriber to THE GENEALOGICAL HELPER and the registration is hand-written. If a subscription order for one year or more accompanies the registration, 50 cents can be deducted. Another 50 cents can be deducted, if the entry is typewritten, thus reducing the cost to $2.00.

Assuming John Doe is a subscriber and has typewritten his registration this is how he would figure the cost:

Cost of listing your name, address and five words (see deductions below		$1.00
Extra words, names and dates, to be paid for	20	
Cost per extra word, name or date $.10 each	X.10	
Total for extra words, names and dates		$2.00
Total cost of registration (see deductions below)		$3.00

DEDUCTIONS

If this registration is typed - deduct 50 cents	$ .50
If you are an active subscriber to THE GENEALOGICAL HELPER or enclose your subscription herewith - deduct 50 cents	$ .50
TOTAL (after deductions, if any)	$2.00

EXAMPLE NO. 2

William Smith
456 West Arlington
Stratford, Ohio
(1) (2) (3) (4) (5)
GREEN (Tenn.); PETERSON 1801, (Va.)

This registration (name, address and five extra words) costs $1.00 if William Smith is not a subscriber to THE GENEALOGICAL HELPER and the registration is hand-written. If a subscription order for one year or more accompanies the registration the cost is 50 cents. If the registration is typed, another 50 cents, may be deducted, making the registration free of charge.

EXAMPLE NO. 3

Mrs. Martha South
937 Hatfield Drive
Thompson 2, Ariz.
Data to exchange: GASPERSON, WOODY, BURNETT, Rutherford and Burke Cos., N.C., Tenn., Mo., WORLEY, Ala.

A total of 15 words, names and localities are included in this registration. The name and address of the registrant and five words cost $1.00. The extra 10 words cost $1.00 (10 x 10c — $1.00. So the cost of this registration is $2.00, if Mrs. South is not a subscriber to THE GENEALOGICAL HELPER and the registration is hand-written. If she is a subscriber or a subscription order for one year or more accompanies the registration, 50 cents should be deducted. Another 50 cents can be deducted, if the entry is typewritten, thus reducing the cost to $1.00.

WHY REGISTER?—WHY ADVERTISE?

Hundreds of people have compiled and published the histories and genealogies of their ancestors. Most of these are available in libraries and private collections enabling us to examine and extend our pedigrees if they connect to the lines thus assembled. But, where hundreds have published their forefather findings, there are thousands who have been just as diligent in gathering information regarding their progenitors but for various reasons have not published it. The published records are easy to find as compared to the unpublished records, as you can readily see.

The unpublished records outnumber the published records many times, yet they are the most difficult to find.

Here is where THE GENEALOGICAL HELPER comes to your aid. It is unquestionably the most widely read genealogical publication. It goes into hundreds of libraries as well as directly to thousands of genealogical minded people. It is completely indexed for surnames, making it easy for those who may be working on your lines to contact you. Thus when you "register" your wants in the Annual Exchange Edition, published each September, or otherwise advertise in any of the three other issues of the "Helper" you are putting your problem before the elite of those interested in genealogy and directly into the hands of thousands who have those unpublished records.

There are hundreds of unsolicited testimonials in our files as to the effectiveness of this method of letting the genealogical world help you with your problem. Mr. L. G. H. a longtime genealogist of Chicago said this, "I consider your publication the most valuable of any that I employ." Mrs. W. A. W. of Lubbock, Texas recently wrote, "I would like you to know that your magazine has surely been helpful to me in my research." Then she goes on to tell how a registration in the 1957 Annual Exchange Edition brought just the information she wanted on one line and another registration in 1958 brought the same results on another family.

You may find many people who are working on your ancestral lines who have registered their interests in previous issues of the "Helper" - But - you won't find all who might have helpful data for you just by looking at what others have published. You should register your desires regarding the information you are seeking before you say you have done everything you can to locate that elusive ancestor.

The admonition "Knock and it shall be opened unto you" has been vividly demonstrated many times by those who have "knocked" at the doors of thousands of genealogists through the columns of THE GENEALOGICAL HELPER. Give it a try. The cost is insignificant when compared to the vast possibilities. Send your registration now so you will be sure to have it in the next Annual Exchange Edition - the most popular way of advertising in THE GENEALOGICAL HELPER. Locate and exchange information with your distant, unknown relatives. They have information you need - you have information they need. Use this handy form to "register" your exchange data.

REMEMBER — June 1 is the deadline for registrations for the next Annual Exchange Edition.

Irish and Scotch-Irish
Ancestral Research

TWO VOLUMES OFFERING THE FIRST
COMPLETE GUIDE TO IRISH GENEALOGICAL RESEARCH
EVER PUBLISHED IN AMERICA OR ABROAD

By Margaret Dickson Falley
Fellow of the American Society of Genealogists

This publication is the result of extensive research in Ireland, continuous consultation with the Directors of important Irish repositories of genealogical records, the accumulation of a private library of over two thousand volumes of source materials and many years of study.

It is compiled for the purpose of aiding Americans in locating the geographical areas from which their Irish ancestors came, identifying the families, and tracing the earlier generations of their progenitors.

Volume One, containing over 600 pages, is a guide to preliminary research for establishing Irish origins. It also describes genealogical collections, indexes, etc., in each of the principal Irish repositories, and the published indexes, catalogues and printed sources available in Ireland and the United States. All classes of source materials and indexes are described in detail, including location, inclusive dates and extent of the manuscript and printed collections and indexes of family pedigrees, wills and probate records, birth, marriage, and burial records, deeds and other land records, census and tax records, and many other classes of source materials.

Volume Two, containing over 350 pages, is a Bibliography of family genealogies, pedigrees and source materials in books and magazines, a list of over 1,400 manuscript family collections of records in two repositories; published histories (county, town, church, etc.) containing genealogical records; and microfilm collections of a genealogical nature. Each volume contains instructions for obtaining information by correspondence.

This work is published in a small edition. It is printed on superior paper, substantially bound and lettered with gold leaf. The volumes are boxed.

An Absolute Must For Irish Research

Only $35.00 for Both Volumes

Because of the great expense involved in its compilation, no discounts even to libraries can be allowed.
